Digital Check Processing

Digital Check Processing

Cost-effective digital check processing systems from Jaguar Software can reduce operating cost and increase fee revenue!

THE AFFORDABLE CHECK IMAGING SYSTEM.

MirrorImage Digital Check Processing is a sophisticated, yet user-friendly, software system created by Jaguar Software.

This versatile system is a modular-based easily scalable product, offering a dynamic range of independent and integrated capabilities to meet your institution's customized needs - today and tomorrow.

MirrorImage, will allow your financial institution to reduce costs by using the benefits of digital image exchange, image statements (CD/DVD-Paper-eStatement) and image research. With electronic check image exchange for clearing and settlement, you can take advantage of increased availability of funds, reduce fraud, and reduce the costs associated with the processing of paper checks. Digital Check Processing from Jaguar gives you the competitive edge!

COMPLETE CHECK21 SOFTWARE SOLUTION FOR ANY FINANCIAL INSTITUTION

MirrorImage system's modularity allows you to configure a system that not only meets your needs today but will also be able to grow as the needs of your institution change in years to come. Below are just some of the modules.
